A good bathing pool nearer home would be appreciated by Auburn and Gresham people. We are all pretty clean, but a good sousing would be appreciated in the warm weather.

We need a lot of improvements in our neighborhood. Be a booster and help us get them.

TREASON.

A lion kills not until he must,
But man, a god, oft is far less just;
A rattler strikes not until he warns,
But man such fair-dealing measure scorns;
Even the house-cat, washing his face,
Is true to the instincts of his race;
'Tis left to man, lord of creation,
To live his life by imitation.
Oh, where in man is found the reason
He thus against himself works treason?
—Isabel Forner Weddon.

WAR FOR HEALTH.

In England, on account of the war, it is reported that local health authorities are finding it difficult to properly and promptly collect and dispose of refuse of a fly-breeding nature. Unless householders co-operate by burning this stuff or burying it, flies will greatly increase and add to their domestic troubles, because of the unusual demand for men at the front.

We in America, notably in big cities, have no excuse for not fighting this greatest enemy to domestic peace and health—the fly. Some people say they do not believe in America's taxing to maintain a large army or navy. Some say they do not want to prepare to kill human beings by fostering military training and thought.

But whether militarists or pacifists, in the ordinary sense, we must all agree on one things, all admonish us to camp on the job of fly extermination. Drill and train daily in the manual which covers careful supervision of wet rubbish, garbage and refuse inviting fly invasion.

Have you a good garbage can?
Has it a cover?
Does the cover fit?
Is the cover kept in place?

Does your servant put all garbage in the can?

Does the garbage wagon call regularly?

Does it call often enough to prevent over-accumulation?

If not, call up the Department of Health, or Department of Streets and Alley Cleaning and report the matter.

Is there any accumulation of damp vegetable or animal matter about your place or on neighboring premises?

Do you or your neighbors keep chickens, horses or cows? If so, is proper disposal made of all manure, so that no flies find a breeding place?

This is a war worth while. It is a war which is not hell; but an inferno of insanitation awaits us if we hesitate and refuse the call to volunteer.

Enlist at once! Fall in! Right dress!
Attention!
Shoulder arms!
Ready! Aim! Fire the fly!

Six states and twenty cities are announced by the American Red Cross as winners of pennants and honors in the Second Annual Competition for selling the largest number of Red Cross Seals per capita during the sale last December. The total sale announced will reach 80,000,000 seals, bringing in a revenue for anti-tuberculosis work in the United States of $800,000.

How would you like to live in a town or a community where the people had no public health service, no education or instruction in matters of sanitation and no efforts made to prevent needless disease and death? In a town, so unfortunately situated, you would find people who still believe that night air is dangerous and that flies are needed as scavengers to eat up neighborhood filth and thus keep people well.

The underfed, poorly cared for child is handicapped for life.

Two of Twobble's acquaintances met on a street corner and one remarked that the daily papers again referred to Twobble as a possible appointee to a state petty office. "He is always being mentioned for some kind of office," he continued. "I wonder why he never gets appointed to one?" "I suspect," said the other, "that's because Twobble's friends are the sort of people who wish you well without stopping to see whether their wishes are carried out or not."—Argonaut.
